Increase _____Pattern

As written	Current size	Date	
Changes	Desired size	Weight of Rows in grams	

Now that you have the length figured you need to decide about the width of the blanket.. You could crochet in a solid color on either side of the main striping section, reverse the striping, mirror the stripes or repeat the striping to achieve the size you desire.

Color Name and Number of rows of each color.	Multiply by gram weight of row in desired length	Number of total grams needed	Divided by number of grams in each skein of yarn	Number of skeins needed in each color

Brand name of yarn and grams per skein
